

PASSIVHAUS PERTH

PASSIVHAUS CATCH-UP

PASSIVHAUS PERTH is pleased to invite you to the first of our regular monthly networking events. Come and catch up with PASSIVHAUS enthusiasts, hear from speakers on specialist subjects and how things in the world of building for 'Comfort, Health, and Energy Efficiency' are progressing.

5.30 for 6 pm, Thursday 22nd February at ECO OUTDOOR,
4 Drake Street, Osborne Park, WA 6017

Celebrate the Certification of WA's first Passivhaus by the Passivhaus Institute, the first PREMIUM level Certification in Australia and only the 10th in the world.

Passivhaus explained in 90 seconds

Come & hear from Pro Clima's Technical Manager, SEAN MAXWELL, about

Airtightness and Moisture Management

Sean would like to hold a conversation about building performance through envelope commissioning. Making buildings more airtight is valuable for energy efficiency, but it must be done with attention to issues of

moisture management and indoor air quality. We will discuss a range of topics to that bring clarity to the adage,

“build tight and ventilate right.”
